Forecast valid from 06:00 on Sunday 05 Feb 2023 until 23:59 on Monday 06 Feb 2023

Forecast Issued on Sunday 05 Feb 2023 at 00:00

Confidence: High for fine days on Sunday, Monday and Tuesday, due to high pressure being centred over the UK, and for a change to generally cloudier conditions from Wednesday as the high moves away east. This allows weakening frontal troughs to edge southeast across the country with lower confidence around the timing and southeastward progression of these.
